Re: Bldg. 743 – Flight Test
Gulfstream Aerospace Corp.
Savannah, GA

Mr. Wayne Hopper
Branscum Construction Company, Inc.
4012 Commons Drive West, Suite 112
Destin, FL 32541

Dear Wayne:

Gulfstream Aerospace Corporation has been an important client to Haskell since 1985. Our valued partnership is a result of trust, professionalism, and innovation that the team members bring to the table on every project that we have successfully performed for Gulfstream.

It is important for Haskell to find and work with companies such as Branscum that share in these same qualities in order to deliver a safe project on schedule and within budget to a client such as Gulfstream. The Gulfstream Flight Test Building 743 project was an extremely important project to their business operations which had a completion deadline that could not be missed.

Branscum's office and field management teams provided a high level of professionalism, coordination and execution during the construction phase to ensure a safe and timely completion of this project. Your company embraced the team concept throughout the project and it did not go unnoticed.

Haskell looks forward to continuing our partnership with Branscum on future projects. Please feel to use me as a reference on any future projects that Branscum is pursuing. If you have any questions, please contact me at (904) 791-4686.

Regards,

Greg Akers
