Precision Erection Company
P. O. Box 559
Russell Springs, KY 42642

Dear Steve:

I would like to again thank you for the fine service performed by Precision during our move into the new facility in Kentucky. There are not many riggers who would spend the time required to tear out and reset a whole plant full of equipment in five days. We really appreciate the professional manner in which this move was made. Your people were able to handle some very large pieces of machinery safely and efficiently. This held our down time of the operation to less than one week.

Again, please extend a sincere thank you to your crew from Jennmar Corporation.

Very truly yours,

JENNMAR CORPORATION
